

Dear Friends,

The short book entitled *The Sexual Holocaust: A Global Crisis*, shows that anything-goes sexuality is creating *the worst humanitarian crisis in history* (see [sexualholocaust.org](http://sexualholocaust.org)). This crisis is worse than the COVID-19 pandemic. Billions of people are being physically devastated by STDs, sexual abuse, trafficking, ubiquitous abortion, and porn-addiction. Billions of people are being emotionally devastated by these traumas, as well as associated loneliness, personal rejection, depression, and suicide. Billions of people are being devastated by the social chaos associated with the physical and emotional consequences of anything-goes sexuality. This includes anything-goes marriage, anything-goes families, and anything-goes gender confusion.

How did we get here? We got here because powerful people in the media, in the government, and in politics have been relentlessly advancing the cause for anything-goes sexuality. This has been in parallel with the widespread rejection of God (the living God who teaches us right from wrong). Prominent early promoters of the sexual revolution included Margaret Sanger, Alfred Kinsey, and Hugh Hefner. Many other influential people, including Supreme Court Justices, have actively promoted anything-goes sexuality. Most if not all people on the far left, are now aggressively promoting anything-goes sexuality. It appears that none of those people have ever stopped to consider the human cost. It appears that their primary concern has been to satisfy their own lusts.

We now live in a sex-saturated culture. Now, nobody is innocent—not even children. Sexual sin now saturates both the Democratic Party and the Republican Party. Who can we trust? Without good leaders, how can we hope to slow, and perhaps reverse, our nation's moral collapse?

The Republican Party is certainly badly stained, as are many prominent GOP leaders. However, over many years the GOP platform has consistently resisted the promotion of the many aspects of anything-goes sexuality. The GOP has consistently promoted sexual responsibility, traditional marriage, traditional families, and the biological definition of male and female. So, within the Republican Party there is still some hope that we might regain the good and fundamental virtues of America—including traditional morality, responsible sexuality, covenantal marriage, and stable families.

What about the Democratic Party? For generations, they have done *everything in their power to promote anything-goes sexuality*. They have given us legalized pornography, unlimited abortion rights, promiscuous sex outside of marriage, anything-goes marriages, anything-goes families, gender confusion, and celebration of all forms of deviant sexuality. They now are either promoting or are considering the legalization of prostitution, polygamous marriages, relaxing laws involving incest, and relaxing laws protecting children. The Democratic Party seems to be best characterized as the party of anything-goes sexuality - regardless of human cost.

What is the ultimate remedy? We believe the ultimate remedy is God. We need God in our life, we need God in our culture. We need to look to God for guidance, regarding what is right and what is wrong. We need God to forgive us when we do wrong, to heal us when we are hurting, and to give us hope when things seem hopeless. Without God, the sexual holocaust will just get worse and worse, and our society will continue to spiral downward into darkness.

Let us begin by voting for sexual responsibility, covenant marriage, and healthy families. The stakes couldn't be higher. If you agree with this letter, please forward it to your contacts, and encourage them to do the same!

Sincerely,

John Sanford, PhD
